MAKE YOUR PROJECT

← A REALITY →

WITH INNOVATIVE FINANCING OPTIONS

Climate Technologies can help you get your project off the drawing board with innovative financing programs.

We work with a number of partners that can create a tailored, flexible financial solution for your project with terms that are competitive.

We specialize in helping small to medium sized businesses find the funding that traditional banks cannot provide.

Conserve capital and create another source of credit.

Get the equipment you need when you need it.

Service and support can be included.

Avoid technological obsolescence.

Loans, leasing, and off-balance sheet financing available.

Introduce life cycle & technology refresh disciplines necessary for Asset Management.

WHY FINANCING?

Minimal paperwork. Less hassle.

Application approved within hours depending on transaction size.

Simple one-page application.

Flexible monthly payments to fit your budget.

FAST AND EASY PROCESS

Climate Technologies is dedicated to the success of your project. We are very confident that the financing programs offered by our partners are the right fit for you.
