For over 50 years, Climate Technologies Corporation (CTC) is a solutions-based manufacturer's representative with a focus on temperature and humidity control, air pollution control and abatement, specialty environments, energy recovery, and environmental certifications. CTC represents the best-in-class manufacturers in the world. With several professional engineers on staff, CTC works with our customers every step of the way to understand their true needs and challenges; develop the right system concept that balances low capital and lifetime operational costs; select, optimize, and procure equipment.

Proudly Representing World-Class Manufacturers:

AEROVENT 
 INDUSTRIAL VENTILATION SYSTEMS

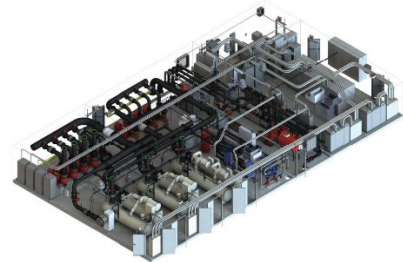

- Industrial Grade Fans and Ventilators
- Direct Fired Air Makeup Units
- AMCA Certified Fan Testing Services

 **Munters**

- Global Leader in Climate Solutions for Mission-Critical Processes and Systems
- Industrial Grade Desiccant Dehumidification Equipment for Low Dewpoint and Ultra-Low Dewpoint Applications

 **EPSILON**
 INDUSTRIES INC.

- Custom, Factory-Built Modular Utility Plants
- Turn-key Skid-Mounted HVAC Systems
- In-House Design and Manufacturing expertise, optimized for broad spectrum of customer needs

Carrier

Strategic Partner for Automotive and Industrial Applications

- Air- and Water-Cooled Chillers
- Indoor/Outdoor Air Handling Units
- Controls & Energy Management

 **COOLING**
 TECHNOLOGY, INC.

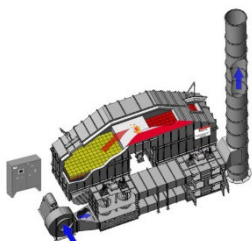

- Compact Chillers, Air- and Water-cooled
- Central Chiller Systems & Custom Cooling Systems
- Cooling Towers, Fluid Coolers, & Water Treatment Products

 **MSM CARNOT**

- Chillers, Condensing Units, Pump Packages for Test Cells, Process Cooling, & Heat Transfer applications
- Screw and Reciprocating Compressors
- Variety of Refrigerants, including Ammonia and CO2

 **ANGUIL**

- Industrial Pollution Control & Abatement
- Regenerative Thermal Oxidizers
- Concentrators and Heat Recovery Solutions
- Wastewater Treatment Solutions

 **DCA** DEHUMIDIFIER
 CORPORATION
 OF AMERICA

- Industrial / Commercial dehumidification
- Pool dehumidification units from 1.5 – 30 tons
- Horizontal and Vertical Configurations
- Control Systems, Remote Condensers, Heaters

 **GEOCLIMA**
 Smart HVAC Solutions

- Air- and Water-Cooled Chillers up to 700 tons
- Magnetic Bearing Turboacor Compressors available
- Environmentally Friendly Low GWP Refrigerants
- Specialty Chillers for Process & HVAC applications

CLIMATE TECHNOLOGIES CORP

ADVANCED CLIMATE & ENVIRONMENTAL SOLUTIONS FOR COMMERCE AND INDUSTRY
23935 RESEARCH DRIVE
FARMINGTON HILLS, MI 48335
(248) 477-2020
<https://climatetechnologies.com>

- Air, water, and dual-cool packages for data centers and mission critical systems
- CRAC units up to 20 tons in all configurations
- Free cooling packages available

- Cost effective equipment rental solutions for Industrial and Commercial HVAC equipment
- Dehumidifiers, Chillers, Boilers, Fans, and Heaters
- Solutions are engineered for each specific application

- Custom designed air handling products
- Double wall construction with full washdown liners
- ECM fan array technology
- State-of-the-art design and low maintenance
